

Project Brief

Eczematee Website is the first arabic platform for people who suffers from eczema, in this website customer can share their experiences, thoughts, feelings and questions about living with eczema and what they went through, because most important in eczema treatment journey is trials, all customers can benefit from others experiences & knowledge, knowledge is power and experience is a treasure.

Eczematee website is very simple and basic, obvious for all, easy to deal with, very well organized, all in arabic language.

Eczema topics are varied, to be reached quickly & easily, it has two level categories, main category and subcategory, under each subcategory there are users discussions they want to share with others.

Knowledge is power from this perspective any visitor for the website can reach all questions & answers that already exist (only can read them), but to start interacting inside the website he must have an account and be logged in.

Logged in users can:

- write discussion to be shared with others
- reply discussions (text and picture)
- like discussions
- report reply

Authorized Admin:

- create, update, delete, read categories and subcategories
- read and delete reported reply
- add, delete, update, and read others admin
